

Jess at ASHRAE Montreal's Dinner-Conference

Montreal, QC, April 22nd, 2016 – Jess exhibited at the April 11th ASHRAE Montreal Dinner-Conference, which took place at the Club St-James in Montreal.

Ron Michael, regional sales manager from the Loren Cook Company (of which Jess is the exclusive distributor) was there to present the topic of system effect and their implication on fan performance.

Jess took the opportunity to present a working demo of Loren Cook fans equipped with Vari-Flow® EC motors and Neptronic controls that combined offer optimized energy efficiency and better control of the fans.

The numerous participants and the interest demonstrated towards the showcased products made the event a huge success and Jess wants to thank everyone who took the time to come and attend.

About

Jess was founded in 1958 in Montreal, Quebec. Our success in meeting customers' demands for over 50 years is the reason we have built a reputation as a local manufacturing representative of HVAC products serving residential, commercial and industrial needs. Representing over 20 HVAC manufacturers, Jess is the largest manufacturing representative of commercial and industrial ventilation and humidifiers in Quebec.
